GPS : Lat : 46°20'32" N Long : 3°28'9" E

A warm welcome awaits you in this recently restored C19th "maison de maître" set in 10 acres of gardens and meadow where you can simply chill out in a hammock or try your skill at badminton, croquet or petanque. We also have bikes to lend you. Afterwards you can cool off with a refreshing dip in the old "lavoir" which has been transformed into a small pool. Chèvre Noire is a haven of peace and well-being but lies close to major tourist attractions in the area including the "le Pal" theme park. Comfortable rooms with en suite facilities, library, guest lounge with fireplace. Evening meals with fresh home-grown and local produce. Whether you are interested in geology, history, culture, flea markets or flora and fauna there is plenty to keep everyone happy.
